## PROFESSIONAL SUMMARY

Final-year Computer Science student with experience in software development, database systems, and IoT applications. Strong foundation in data structures, object-oriented programming, networking, and database systems, with hands-on experience developing full-stack and distributed applications. Proficient in C++ and JavaScript, with working knowledge of Python and Node.js.

## TECHNICAL SKILLS

**Programming:** JavaScript, C++, PHP, Python, Node.JS

**Web Development:** HTML, CSS, React

**Database:** MySQL, PostgreSQL, Microsoft SQL Server, MongoDB

**Tools & Platforms:** Git, GitHub, VS Code

**Additional Knowledge:** Object-Oriented Programming, Data Structures & Algorithms

## WORK EXPERIENCE

**Mawea Industries Sdn Bhd** | Petaling Jaya, Selangor

February 2023 – July 2023

Trainee, Software Engineer

- Developed a real-time worker tracking system using React, Node.js, and PostgreSQL, managing worker attendance, task assignments, and production progress across the production floor.
- Built a real-time operational dashboard using React to monitor workforce activity, active tasks, and production-floor status.
- Developed a production scheduling module for planning, assigning, and managing production tasks.
- Implemented MSSQL database triggers to automatically determine machine states based on binary operational data, automating machine-status processing.

**Portal One Sdn Bhd** | Petaling Jaya, Selangor

August 2022 – November 2022

Intern, IT Technician / Support

- Provided technical support and troubleshooting for enterprise hardware and software systems
- Assisted in deployment, maintenance, and infrastructure setup operations
- Supported structured cabling and access control infrastructure deployment

## EDUCATION

**Bachelor of Computer Science (Honour)**

Universiti Teknologi Mara (UiTM) · Tapah, Perak

Expected December 2027

**CGPA: 3.69**

**Diploma in Computer Science**

Universiti Poly-Tech Mara (UPTM) · Cheras Kuala Lumpur

December 2022

**CGPA: 3.86**

## PROJECT

**IoT-Enabled Smart Home System with Integrated Security Features**

Final Year Project – Bachelor | **Tech: ESP32 | MQTT | Node-RED | C++ | Flutter | Cloudflare Tunnel**

- Developed a distributed IoT system using ESP32 and MQTT for real-time communication between sensor nodes and the central processing layer
- Implemented C++ firmware for sensor monitoring, device communication, and event-driven system control
- Built a Node-RED processing layer to manage device messages, system events, and real-time monitoring
- Implemented communication and security mechanisms to improve device reliability, authentication, and network resilience

**EN Tuition Student Management System**

Final Year Project – Diploma | **Tech: PHP | HTML | MySQL**

- Developed database-driven student management system using PHP, MySQL, HTML, and CSS
- Implemented functionalities for scheduling, student records, and administrative workflow operations
- Designed relational database structures supporting application functionality

## LEADERSHIP & VOLUNTEERING

---

### **JPJPP UiTM (Campus Election Committee)**

October 2025 – October 2026

Chairman, Executive Committee

- Led campus-wide election initiatives contributing to 98% voter turnout at UiTM Tapah and 71% overall turnout across UiTM Perak

### **Kelab Briged Sukarelawan Mahasiswa (BRISUMA) UiTM Tapah**

January 24 – January 25

President

- Led a student volunteer brigade club, overseeing member recruitment, program planning, and club operations throughout the academic year.

### **Pertubuhan Kebajikan Sanggar Suri Malaysia**

January 19 – Present

Active Volunteer / EXCO Kepimpinan Belia & Mahasiswa

- Participated in humanitarian and disaster relief operations including flood response and landslide aid initiatives during East Coast Monsoon operations
- Collaborated with National Disaster Management Agency (NADMA), local authorities, and community organizations in volunteer coordination activities

## ACHIEVEMENTS & COMPETITIONS

---

- First Place – DEVCON 2K24 Basco X Disk
- Participant – Product Idea Innovation (PRiDE) Showcase Competition 2025 (UiTM Perak Branch)
